

Dr. Wongyu Park 

Advection and retention of larval
Dungeness crab *Cancer
magister* in Glacier Bay and
adjacent areas

Dr. Thomas Shirley

Ms. Heidi Herter 

Transport of Dungeness crab
(*Cancer magister*) megalopae
into a marine protected area
(Glacier Bay, Alaska)

Dr. Ginny Eckert

Mr. Brian Knoth 

Arrowtooth flounder
(*Atheresthes stomias*) diet and
prey consumption near Kodiak
island, Alaska

Dr. Robert Foy

Ms. Cassie Mellon 

Effects of an intense fire on
headwater streams of the
Colville National Forest, WA

Drs. Mark Wipfli & Judith Li

Ms. Sara Miller 

Estimation of migration within a
spatially explicit stock
assessment model of Eastern
Bering Sea walleye Pollock
(*Theragra chalcogramma*)

Dr. Terrance Quinn II

Mr. Joshua Robins 

Further investigation of
biophysical factors affecting the
marine growth and survival of
coho salmon from Auke Creek,
Alaska

Dr. Milo Adkison

Mr. Kevin Schaberg 

Contribution of muskeg channel
habitats to juvenile coho salmon
production in the Situk River,
Alaska

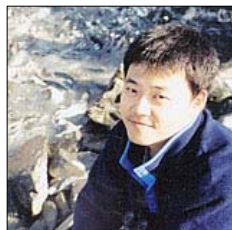

Dr. Nicholas Hughes

Ms. Kathy Smikrud 

A Remote Sensing-GIS Based
Approach of Chinook Salmon
Rearing Habitat in the Unuk
River Floodplain: Capabilities,
Limitations, and Implications for
the Future

Dr. Joseph Margraf

Mr. Tadayasu Uchiyama 

Effects of marine-derived
nutrients on population dynamics
of sockeye salmon
(*Oncorhynchus nerka*)

Drs. Bruce Finney &
Milo Adkison

Ms. Danielle Underwood 

Bathymetric and spatial
distribution of echinoderms on
seamounts in the Gulf of Alaska

Dr. Thomas Shirley
