

Summer Internships for Students with Interest in Fisheries, Natural & Social Sciences

The Bristol Bay Native Association is offering summer internships focusing on the biological & environmental sciences that help manage Bristol Bay fisheries and ecosystems.

Internships are located in:

- Togiak National Wildlife Refuge
- Lake Clark National Park
- Bristol Bay watershed lakes, rivers, streams & communities

Internships paid at \$15 per hour plus pre-arranged over-time for specific projects

Internship opportunities include field experience on fisheries research projects involving monitoring salmon escapement, using radio telemetry to identify spawning grounds, limnology, ecology, and more!

Internship applications are due April 15, 2011

Applications submitted after this deadline may not be considered and are at the discretion of BBNA.

For more information or to request an application please contact the Bristol Bay Native Association:
